

ENVIRONMENTAL SCIENCE EM MS DEGREE CHECKLIST

Required courses: Total of 36 hours

1. BIOL 3034 – Ecology or its equivalent
(can be taken before admittance)
2. ENVR 5303 for 3 hours - **Must take in the first year.** Must make a B or better in course or retake.
3. ENVR 5123 for 3 hours – **Must take in the last year.** Offered spring semesters only.
4. ENVR 5503 - Practicum for 3 hours- Only after 18 hrs are taken. Prerequisites: 18 credit hours, which must include one environmental compliance course (POLS 5633 or CIVE 5123), and one environmental risk course (POLS 5643, POLS 5653, or CIVE 5823); OR comparable courses as approved by the instructor
5. ENVR 5510 - Internship - 3 hours
File Internship papers (found on web) before your internship begins.
6. Thesis option requires 6 hours of thesis
7. Report option requires 2 hours of thesis
8. Skill (Research) Component - 3 hours
9. Advisory Committee will consist of 3 members with two different departments.

Things not to forget:

1. File Plan of Study through the Environmental Science Program Coordinator before the 17th hour.
2. ES Director is the Department Head.
3. File final change of grade forms for thesis.
4. File diploma application and the graduation clearance form from the Graduate College, at the beginning of the last semester. If you don't graduate when you think you will then please file the application again. Graduation clearance form is very important. Check your plan of study at this time making sure that all courses on the transcript match the plan exactly.
5. A yearly review will be done on your progress each May. If you lose an advisor you will be notified and given one semester to find another one.
